Angela is the illustrator behind

Mary's House Designs.

Every element is hand-drawn and painted, collaged and printed and composed in

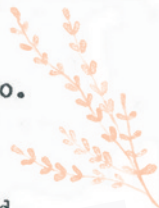

Angela's home studio.

Angela's inspiration is drawn from nature, daydreaming and storytelling. -you will see repeated natural elements, the written word and imaginative, playful imagery too.

Each design begins its life as a hand-drawn, painted or collaged artwork that can then be applied

across products including art prints for the home, stationery, cards and homeware.

In her work she expresses her
love of nature and
uses stories, poems and her imagination
to create each piece.
